Picton Civil have been involved in earthmoving and plant hire in the Bunbury Region of Western Australia since 1968.

## Summary

Picton Civil is an earthmoving company that is based in Picton in the southwest of Western Australia. Picton Civil provides expertise in civil and bulk earthworks, road

construction, drainage, demolition and asbestos removal, bulk material supplies and equipment wet/dry hire.

## Description

Picton Civil have been involved in earthmoving and plant hire in the Bunbury Region of Western Australia since 1968. The company headquarters is located at 11 Yookson Road, PICTON.

Over one hundred (100) items of plant and equipment, predominantly late model Caterpillar, are available for either hourly hire or contract work. These include;

- . Excavators (1 tonne to 36 tonnes) with various attachments; including a long reach excavator with an 18m reach;
- . Loaders (1.5m<sup>3</sup> to 4m<sup>3</sup>).
- . Multi-terrain loaders.
- . Drum and multi wheel rollers.
- . Chain trenchers.
- . Graders.
- . Compactors.
- . Concrete saws.
- . Watercarts.
- . A fleet of 6 wheel trucks with or without scour backs for transporting wet material, semi side and end tippers and live bottom trailers.

Our machinery is in excellent mechanical condition, due to regular maintenance by our in house mechanical team. See attached list of equipment for our full range

Picton Civil specialize in civil earthworks, in particular, site preparation, demolition, drainage, service trenching, hard standing construction, road works, hotmix paving and many other types of projects including dam cleaning, house pads, and driveways, environmental rehabilitation, reticulation and

associated earthworks. All trucks, light vehicles and some excavators are fitted with VHF private frequency or UHF two-way radios. We have three mobile mechanics that can service equipment and carry out repairs in the field or in our workshops at Picton. Picton Civil work predominately in and around the Bunbury and South West Region.

Due to the high standard of accreditation that is required in many of the areas in which we work (eg. Mine sites), all of our equipment meets Work Safe WA standards or better. Picton Civil emphasize that safety is an important issue on any job and we endeavour to ensure our safety performance and practices are second to none. In addition, in order to meet the strict safety standards we ourselves have set, all of our plant operators are accredited with a National Operator Certificate of Competency and have OHS blue/white cards. All employees are screened for drugs, prior to commencement and are randomly screened throughout their employment. J W Cross & Sons Worsley Maintenance Operations crew have recently completed 5 years of incident free days.

Picton Civil consist of a partnership of four brothers. All partners actively supervise major contracts. The workforce consists of 35 permanent employees. Our office personnel are available between 7 am and 5:30 pm during the working week on 08 9725 4390. Our operations managers Craig Reely 0418932608 and Robert Brookes 0418949619 are contactable 24/7 to ensure clients' needs are met promptly.

The company is a holder of a Class 2 Demolition Licence

disposal site (Peel Resource Management) with appropriate licenses for the disposal of asbestos, tyres, greenwaste, rubble and many other products. Peel Resource

Management is also a sand and other product supply business.
