CONSI provides assurance of Owner satisfaction and acceptance of a project output.

## Summary

CONSI specialise in Completions, Pre-Commissioning, Commissioning, Quality Assurance, Operational Readiness and Handover. CONSI will guide your project from

Construction through Commissioning to Nameplate Operation. CONSI provides the process and resources to close out and handover a project.

## Description

CONSI provides assurance of Owner satisfaction and acceptance of a project output. CONSI works throughout the construction and commissioning process to ensure the Owner is able to confirm the quality specifications of the project have been achieved.

CONSI can deliver and report the progress of Completions, Commissioning and Quality Management Activities including:

- \* Plant sub-systemisation.
- \* Tracking the status of tagged equipment, cables, etc. and real time reporting on the status of tagged equipment.
- \* Preservation to ensure warranty and spares requirement.
- \* Pre-Commissioning with associated testing.
- \* Punch identification process and Punchlist management.
- \* Construction Mechanical Completion that meets specification and quality for client acceptance.
- \* EEHA inspection and sign off.
- \* Start up, function testing - bump start, pressure testing, cold loop and hot loop, system sequence testing, dry commissioning, wet commissioning.
- \* Identifying the requirement for vendor site visits and scheduling vendors to align with completion and commissioning activities.
- \* Commissioning technicians, support personnel, temporary work and temporary supplies Equipment and hire returns. (power, air, water, etc).
- \* Decommissioning.
- \* Reporting and completion certificates.
- \* Operations and Operations transition support. Training for Plant Operations and Vendor Equipment.

CONSI will also deliver or assist with documentation

- \* Project Closeout report.
- \* As-Built and As-Commissioned drawings
- \* Create or update risk and work registers
- \* Identify and handover Vendor Warranties
- \* Lessons learned

### Consulting

CONSI can assist a project by identifying and defining the Completions and Commissioning; Scope, Cost, Schedule, Risk, Quality and documentation requirements, Human Resources and Procurement. CONSI can complete audits with recommendations if the project is already in progress.

### Recruitment

CONSI's team members are available to assist by filling any Completions or Commissioning role. CONSI can supply completion and commissioning personnel who specialize in all areas including; Completion and Commissioning Management, High Voltage, Hazardous Area, Electrical and Instrumentation, Mechanical and Piping, Fire systems, Plant Control Systems, Quality Management, Project Scheduling.

CONSI is proud of the excellent track record in relation to quality, health, safety and the environment and are fully committed to continuous improvement throughout our organisation. CONSI systems build on workplace culture which reflects the vision of; Customer focus, Leadership, Engagement of people, Process approach, Improvement, Evidence-based decision making and Relationship management.

## Industries Served

- > Clean Energy
- > Construction & Engineering
- > Oil, Gas & Energy
- > Professional Services
- > Water

---

## Major Clients

- > Anglo American
- > Evolution Mining
- > CPC Engineering
- > Syrah Resources
- > VicRoads

---

## Facilities and Equipment

- > Lock Out Tag Out equipment
- > Commissioning Test Equipment
- > Commissioning Tools

## Products & Services

- > Plant sub-systemisation.
- > Tracking the status of tagged equipment, cables, etc. and real time reporting on the status of tagged equipment.
