DGI has built their reputation on quality and reliability of their services and products.

Summary

Derek Gee Installations Pty Ltd has been successfully servicing both national and international clients for over 20 years.

DGI has built their reputation on quality and reliability of their services and products.

Specialising in servicing GRVE/GRP/FRP/GRE/composites fabrication and installation on large construction projects such as chemical storage facilities, industrial processing plants, LNG processing plants, desalination plants, waste water treatment, mineral processing plants and mine sites. DGI projects can range from installation only through to complete turnkey projects, depending on the clients' needs.

Description

DGI has built their reputation on quality and reliability of their services and products.

Specialising in servicing GRVE/GRP/FRP/GRE/composites fabrication and installation on large construction projects such as chemical storage facilities, industrial processing plants, LNG processing plants, desalination plants, waste water treatment, mineral processing plants and mine sites. DGI projects can range from installation only through to complete turnkey projects, depending on the clients' needs.

With a large workforce of trained and qualified laminators / pipe fitter bonders, pipe fitters, mechanical fitters, poly welders, machine operators and D6 Inspectors (ISO 14692-4), DGI has the capability to undertake numerous projects across the globe.

DGI complement this by providing off-site spooling of GRVE/GRP/FRP/GRE/composites pipe systems to

supplied isometric drawings at our fabrication workshops. DGI offer dedicated delivery to the construction site using our own equipment, thus ensuring that the pipe is correctly packaged and handled right through to the onsite lay-down area ready for site installation. This can help keep project costs down by reducing site labour. Derek Gee Installations can also offer competitive pricing on various scopes of work ranging from just completing site joining of client supplied pipe to off-site spooling and jointing and onsite installation.

DGI can also supply complete pipe systems including PE or Bell and Spigot pipe, flanges, bends, reducers, blinds, tees and special fittings. DGI also join and install HDPE, PVC, CPVC where required ensuring material interfaces are trouble free.

Derek Gee Installations Pty Ltd is certified to ISO 9001, AS/NZS 4801 and ISO 14001.

Industries Served

- > Construction & Engineering
- > Mining
- > Oil, Gas & Energy
- > Water

Facilities and Equipment

- > Fully equipped specialist mobile crews to undertake manufacture and installation of GRP Pipe and Tanks throughout Australia and internationally
- > Manufacturing workshop in Western Australia and Tasmania

Products & Services

- > Site installation of various piping systems such as GRP, stainless steel, MSCL, Duplex, HDPE and PVC;
- > Testing, both offsite and in-situ; hydrostatic, pneumatic, static head and in-service leak testing;
- > Workshop manufacture of composite processing equipment.

Accreditations

- > ISO 9001
- > AS/NZS 4801
- > ISO 14001.

Major Clients

- > South32 - Groote Eylandt Mining Company (GEMCO) - 2019
- > Yara, Yara Pilbara Nitrates Plant, Karratha WA 2018 - 2019
- > BGC Contracting, Karratha Gas Plant, WA 2018 - 2019
- > WP180, Woodman Point Wastewater Treatment Plant, Woodman Point WA 2018 - 2019
- > Nyrstar Hobart - Tasmania 2018
- > Goodline - Nyrstar, Port Pirie South Australia 2017
- > CPB-UGL - Western Treatment Plant, Werribee Victoria 2017
- > UGL - Gorgon LNG Project, Barrow Island 2017
- > Laing O'Rourke - Ichthys Onshore LNG Facilities, NT 2016 - 2017
- > CKJV (CB&I Kentz JV) - Gorgon LNG Project, Barrow Island 2014 - 2017
- > Leighton Contractors / CPB Contractors - Gorgon LNG Project, Barrow Island 2013 - 2017
- > CH2-UGL Joint Venture - Ichthys Onshore LNG Facilities, NT 2014 - 2015
- > Thiess - Gorgon LNG Project, Barrow Island 2015
- > JKC - Ichthys Onshore LNG Facilities, NT 2014 - 2015
- > Leighton Contractors / CPB Contractors - Ichthys Onshore LNG Facilities, NT 2013 - 2015
- > Sarplast - Gorgon LNG Project, Barrow Island 2013 - 2015
- > Koniambo Nickel Project, New Caledonia - 2014
- > Southern Seawater Desalination Project, Binningup 2012 - 2013
- > Thiess Degremont Victoria Desalination Project - 2010 - 2012
- > McConnell Dowell JV - Adelaide Aqua Desalination Project - 2009 - 2012
- > Vale Inco - Goro Nickel Project, New Caledonia - 2008 - 2012
- > Sino Iron Project, Karratha - 2011
- > Fibrelogic Pipe Systems - 2009 - 2010
- > Gold Coast Desalination Project - 2008
- > Fibrelogic Pipe Systems 2007
- > Kogan Creek Power Qld 2006 - 2007
- > Alstrom Power Kwinana 2006 - 2007
- > MDJV - Perth Desalination Project - 2006

Previous Significant Projects

2017

Gorgon LNG Project, Barrow Island WA
\$15,000,000

Client: Leighton Contractors / CPB Contractors, Thiess, CKJV, CB&I Tanks, Sarplast

GRVE pre-spooling and installations, internal fit out of over 1,200 Firewater Valve pits and Class 1 & 2 Manholes and Valve pits, which included Valve Installation and internal furniture fit out.

2012

Adelaide Desalination Project, Adelaide SA
\$10,000,000

Client: McConnell Dowell JV

GRP on site jointing & installation

2012

Victorian Desalination Plant, Wonthaggi Victoria
\$7,000,000

Client: Thiess Degremont

GRP pipe on site jointing

2017

Ichthys Onshore LNG Facilities, Darwin NT
\$3,500,000

Client: Leighton Contractors / CPB Contractors, CH2-UGL Joint Venture, Laing O'Rourke

Pre-spooling and site installation of GRVE pipework

2015

Binningup Desalination Plant Stage 2
\$10,000,000

Client: Southern Seawater Joint Venture

GRP on site jointing & installation, hydro testing, mechanical works

2012

Goro Nickel Project, New Caledonia
\$8,000,000

Client: Vale Inco

Installation and repair of GRP pipes and tanks, and repair of 21 pulse columns.
