## THE SAFESPEAR DIFFERENCE

Safespear brings together the expertise and industry knowledge from well-respected businesses; Safehouse and Redsphear Safety. Our focus on excellence and shared core values differentiate us in the market.

### Summary

Safespear is an Aboriginal-owned business and our primary objective is to ensure that the worker, who goes to work, returns safely to his/her family. We do this through innovation, design and the supply of world-class safety solutions and believe that if it cannot be done safely, it should not be done at all.

Safespear's dedication to the consistent delivery of client-focused and highly-specialised safety services to our clients sets us apart from the competition.

Our agile business delivery model is client centric, ensuring our customers are at the heart of everything we do. We strive to align our objectives with our client's desire to reduce safety risks, maintain operational schedules and increase productivity.

Our in-house capability is proficient in the installation, inspection, rectification, conformity assessment and commissioning of all on-site and off-site systems.
