Earth Exchange operates on cost effective logistical solutions for: Haulage & Disposal of all waste classifications including: Special Waste Asbestos soils, GSW (recyclable and non-recyclable), Treated PASS, Restricted Waste, GSW Putrescible, Hazardous Waste, EPA exempted waste, VENM, ENM.

Summary

Earth Exchange Pty Ltd is a privately owned company. We are one of the largest Waste Managers of excavated materials in the Sydney metropolitan area.

Earth Exchange manages the removal of unwanted earth and waste from large construction sites across NSW and the subsequent transport to disposal sites.

Description

Earth Exchange operates on cost effective logistical solutions for: Haulage & Disposal of all waste classifications including: Special Waste Asbestos soils, GSW (recyclable and non-recyclable), Treated PASS, Restricted Waste, GSW Putrescible, Hazardous Waste, EPA exempted waste, VENM, ENM.

Supply and Delivery of compactable VENM/ENM to various DA approved development sites, or sites with EPL (Environmental Protection License) authorization. Supply and Delivery of recycled and natural products.

This is the company's core business and it is driven by research and sales.
