Offering custom-designed products for all aspects of fire protection.

Summary

ARA Fire is an Australian business and a national provider of fire protection services. ARA Fire specialises in the design, supply, installation, service and maintenance of fire protection systems.

ARA Fire delivers innovative fire solutions to large-scale infrastructure projects and across a range of industries and

market sectors including tunnels, mining & resources, manufacturing, retail, food & beverage, healthcare and commercial buildings.

ARA Fire is located in NSW, Queensland, Victoria, South Australia, Western Australia and the ACT.

Description

Offering custom-designed products for all aspects of fire protection. Equipping Australian infrastructure and facilities with innovative fire protection solutions tailored to your needs.

Knowledgeable

Through comprehensive industry experience and expertise, our team of technicians provides unparalleled protection.

Extensive

We deliver an extensive range of fire protection, from sprinkler, detection and EWIS systems, to portable systems and passive fire doors.

ARA Group companies ARA Fire, D & R Pipe Fabrication and ARA Electrical Engineering worked on the Brisbane Airport Link and Busway Project, one of the largest infrastructure projects in Australia. The project consists of 15km of tunnel connecting Brisbane CBD and the Clem

Jones tunnel to the East West Arterial Road that leads to Brisbane Airport.

ARA Fire provided labour and project management assistance to Thiess John Holland for the tunnel's fire sprinkler and deluge system; installation and maintenance of portables during construction across the whole site; and civil plumbing works. D & R Pipe Fabrication provided a significant part of the pipe fabrication, fittings and brackets for the project and Bass Electrical Engineering provided electrical commissioning services.

The ARA Group is currently supplying, designing, manufacturing and installing various fire protection systems, electrical and HVAC systems for the Westconnex projects.

The ARA Group specialize in large infrastructure projects.
