Prochem Pipeline Products is a leading supplier and stockists of stainless steel, special alloys, piping products, mechanical instrumentation and valving solutions. Coupled with our comprehensive product range through out our six stocking branches across Australia and New Zealand, Prochem is your local source for supply and support.

Summary

Prochem Pipeline Products is a leading supplier of superior piping products, mechanical instrumentation and specialty valving solutions. For over 60 years we have consistently delivered quality management, expert technical support, and a total commitment to our valued customers.

Our knowledge and expertise allow Prochem representatives to take a hands-on, individualistic approach, providing value added solutions. Coupled with a

comprehensive product range through our nine stocking branches across Australia and New Zealand.

Quality is paramount in everything we do. In addition, Prochem's commitment to safe operations extends to our Installation Training to improve the overall safety of your fluid system installations, ensuring installation integrity and reliability.

Description

Prochem Pipeline Products was established in 1956. Offices in all Australian states and New Zealand. Prochem Pipeline Products are able to supply Piping Products, Instrumentation, Valves and Actuators, Indent

Service, Manufacturing, and Hydraulic Products.

Prochem Pipeline Products is Lloyds Register Certified and accredited to ISO 9001.
